Application No. 10/691,760

Continuation of 3. NOTE:

Amended claim 1, further includes the limitation of "... having channels with a center frequency with mutually identical frequency difference between the center frequencies of adjacent channels".

Amended claim 3 further includes the limitation of "... differ in absolute frequency differs from the center frequency of a corresponding channel of another multi-channel device provided to at least some other nodes prior to the tuning frequency aligning the center frequency of one of the channels of the multi-channel device with the non-absolute frequency reference".

Amended claim 11, further includes the limitation of "... having channels with a center frequency with mutually identical frequency difference between the center frequencies of adjacent channels".

Amended claim 13, further includes the limitation of "... having channels with a center frequency with mutually identical frequency difference between the center frequencies of adjacent channels".

The newly added limitations in the claims have changed the scope of the claims. Further search and consideration are required..
